

As a paying XM radio subscriber, I respectfully ask that you reject the National Association of Broadcasters' petition 04-160. I have a right to gain the Traffic and Weather information that XM radio provides to me. The constant traffic and weather updates provided are not available anywhere else. The NAB is viewing satellite radio as competition, but the truth is, satellite radio provides content that local radio could NEVER provide. We deserve access to this content. Please reject the NAB's petition.
